

Who are solar panels in Newcastle?

We are a local solar panel company in Newcastle that has been operating in the region for over 25 years. We have sold and installed thousands of solar power systems homes, factories and rural properties.

Do you need a solar battery in Newcastle, NSW?

When you call Newcastle Solar Power for solar installations, our team would usually recommend options for batteries in Newcastle, NSW. A solar battery allows you to store excess energy absorbed by your solar panels so that you can use it after sunset, on cloudy days, and even during power outages.

How much do solar panels cost in Newcastle?

The cost of solar panels is dependent mainly on the size of your solar panels. For instance, a 5kW system, the most popular solar system in Australian homes, goes for approximately \$6,284. The national average of solar systems of the same size is about \$6,524, which means the cost of a 5kW system in Newcastle is on the lower end.

What services does Newcastle Solar Power offer?

Newcastle Solar Power offers various services, including roof-mounted solar systems for residential installations. These are the most popular type of residential solar installations today, according to Solar Panels Canberra.

Can businesses in Newcastle use solar panels?

Yes, business owners in Newcastle and nearby New South Wales cities can use solar panels to save on power costs. We install small to large-scale solar PV systems for commercial use in Newcastle.

Where can I install solar panels in Newcastle?

McLanahan Corporation located in Cameron Park in the industrial outskirts of Newcastle, installed a 60kW solar panel system in 2020. This system is expected to save over \$100,000 in electricity costs during its life and will offset 959 tonnes of CO2 emissions. Compare quotes from up to 7 pre-vetted installers in Newcastle now.
