

Who is Norfolk Solar?

Norfolk Solar is the premier provider of solar PV, solar thermal, and electric vehicle charging points in Norfolk.

What services does Norfolk Solar offer?

Welcome to Norfolk Solar, the premier provider of solar PV, solar thermal and electric vehicle charging points in Norfolk. Solar PV is the greenest way to provide heating and lighting to your home.

Why are Norfolk's solar projects so important?

Norfolk's solar projects are emblematic of a broader tension between meeting net-zero targets and preserving rural areas. The National Energy Systems Operator has called the 2030 decarbonisation goal "a huge challenge but achievable," with a need for reforms to fast-track energy infrastructure.

Is Norfolk a good place to build a solar farm?

Norfolk's flat landscape, coupled with its status as one of the driest and sunniest counties in the UK, makes it ideal for solar farms - but these same conditions also make it prime agricultural land. The largest proposed development, spanning 5,000 acres near Gissing, south of Long Stratton, would generate 900 megawatts of power.
