

What are the best outdoor solar lights?

For an affordable lighting option that adds ambiance to your outdoor space, we recommend the 33-foot-long Brightown Outdoor Solar string lights. Available in seven colors (we tested white), these fairy lights survived all of our durability tests and were easy to install, with only two stakes needed for the solar panels.

How do solar-powered outdoor lights work?

Solar-powered outdoor lights are powered by solar cells that convert sunlight into electricity. This electricity is then stored in an internal battery, allowing you to use them just about anywhere there is sunlight exposure--no outlet required.

Are solar lights a good choice for outdoor spaces?

Solar lights are a great option for illuminating your outdoor space. According to Sarah Jameson, marketing director of Green Building Elements, 'Solar lights, compared to low voltage and line voltage outdoor lights, are safer and more DIY-friendly since there's little to no wiring required at all.'

Where can you use solar-powered outdoor lights?

You can use them just about anywhere there is sunlight exposure--no outlet required. They're powered by solar cells that convert sunlight into electricity, which is then stored in an internal battery.
