

Why should I install a solar system in my Palmerston North home?

Installing a solar system ensures reliable, efficient energy generation for your Palmerston North home. A tailored residential solar solution from Solar Group will help meet your long-term energy needs while reducing your carbon footprint.

Who is Solar Group NZ?

Solar Group NZ provides great service and premium solar power solutions for various settings. Homes, companies, retail spaces, schools, farms, and retirement communities - we bring the sun's power to life across diverse sectors. Installing a solar system ensures reliable, efficient energy generation for your Palmerston North home.

How does solar energy work in New Zealand?

Solar energy in New Zealand is still in its early stages. Less than 2% of properties use solar energy to power their home or business. How does solar work? Simply put, solar panels trap sun and light to produce power which we can then use. Solar Photovoltaic panels are installed on your roof or on a ground-mounted frame.

Who is solar group?

Harness the sun's power and slash your electricity bills with Solar Group, Palmerston North's leading renewable energy solutions supplier. Our exceptional solar power systems, flawlessly installed for both homes and companies, significantly reduce your reliance on the grid and generate clean energy for years.

How many solar power systems have been installed in Manawatu-Whanganui?

As of April 2024, 2,747 solar power systems have been installed in the Manawatu-Whanganui region. Any consents and applications required for solar power installations are (generally) taken care of by solar installation companies the buyer has chosen. Connection approval will be required from Power Co; Manawatu/Whanganui's local lines company.

Do solar panels work in New Zealand?

Absolutely! New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island.
