Do perfumes have solar notes?

Some perfumes are presented as having "solar notes" or "solar flowers", with little explanation as to what that might mean. Although the image of a solar blossom is exotic, the term simply defines a warm and radiant effect, and in my article, I explain how it's achieved and give examples of several fragrances.

What is a power perfume?

Generally speaking, power perfumes come in two categories: talcum powder or face powder. Those falling into the 'talcum powder' category can also be called 'baby powder' perfumes and are often sweet. They rely on notes such as vanilla and lavender and tend to be cleaner and fresher in scent than 'face powder' perfumes.
