Are solar panels worth it in Perth?

Though solar power systems are always worthwhile in Perth, the exact specifics of financial and environmental savings through solar power in Perth will depend on a number of factors, including energy consumption as well as the orientation, tilt and shading of your solar panels.

How do I buy or repair a solar PV system in Perth?

If you wish to purchase or repair a solar PV system or a solar hot water system in Perth, dial 1300 73 93 55 to get a quote or to schedule a free site assessment. It costs nothing to speak to one of our local solar energy specialists. If you're looking for a solar power system in Perth or Western Australia, you've come to the right place.

Why is solar power so popular in Perth?

Solar power has become synonymous with Perth and it's no wonder why. Perth is not only one of Australia's sunniest cities, but electricity prices are particularly expensive compared to other capitals, making solar power and solar hot water systems a clever investment for the people of the Western state.

Can solar power save you money in Perth?

Even in winter, Perth temperatures rarely drop below 5 degrees, keeping solar power systems busy throughout the year and keeping homes lit without relying much on the grid, thus saving you a lot of money.
