

Where can I get solar power in Port Macquarie?

If you're looking for solar power in Port Macquarie, then look no further than Ocean Solar. Our fully accredited solar designers can customise a solar power system for you in Port Macquarie to maximise your return on investment.

How does MNC solar power help Port Macquarie?

MNC Solar Power help Port Macquarie homeowners and local businesses harness the power of the sun to save on energy costs, reduce your carbon footprint, and enjoy reliable and sustainable electricity from solar and modern battery backup solutions such as Tesla Powerwall.

How much solar power does Port Macquarie produce a day?

Generally speaking, an optimally-installed solar system in Port Macquarie can be expected to generate about 3.9 kilowatt-hours (kWh) of solar power per day for each kilowatt (kW) of capacity in the system. This figure is the yearly average, meaning that it will actually produce more in the summer and less in the winter.

What areas does Macquarie Power service?

Macquarie Power provides a 24 hr Service to the Lake Macquarie, Newcastle, Port Stephens and Hunter Valley areas including Speers Point, Raymond Terrace, Belmont, Cardiff, Charlestown, Dudley, Kotara, Toronto. All Areas of the Lake Macquarie, Newcastle, and Port Stephens Areas.

How much energy does a solar system produce in Port-Macquarie?

Assuming an overall system efficiency of about 80%, this means that: A 1.5kW system in Port-macquarie will produce about 5.76kWh per day in good conditions. A 3kW solar system will produce about 11.52kWh per day. A 5kW solar system will produce about 19.2kWh per day. A 10kW solar system will produce about 38.4kWh per day.
