

What is a power purchase agreement for solar energy?

A Power Purchase Agreement (PPA) is most commonly used in the sale and purchase of renewable energy, especially that generated from solar panels. The agreement can be beneficial for businesses who wish to reduce their carbon emissions when they enter into a PPA for solar energy.

What is a retail solar power purchase agreement?

A retail solar power purchase agreement is a long-term contract to purchase power from a third-party owner and operator of a solar energy generation system. In this report, the model agreements are drafted for a municipal government to purchase all of the energy produced by the solar project.

What is a Solar Power Purchase Agreement (SPPA)?

A Solar Power Purchase Agreement (SPPA) is an agreement for the purchase of electricity generated by a solar energy system. The cost is typically charged for each kWh generated by your system. You'll receive a monthly bill based on how much energy you received from the system. SPPAs are contracts for the purchase of solar electricity. They are typically anywhere from 7 to 25 years, with short contracts having a higher cents per kWh charge and longer contracts having a lower c/kWh charge.

Does Canadian Solar have a solar power purchase agreement with Amazon?

Canadian Solar has signed a solar power purchase agreement (PPA) with online shopping giant Amazon to help the company meet its renewable energy goals. The power will be supplied from the 146 MW/110 MW Gunnedah Solar Farm, which will reach commercial operation by 2021.

When will SCPPA deliver carbon-free electricity?

The carbon-free electricity generated by the 125 MWac solar photovoltaic (PV) system and 65 MW 4-hour Battery Energy Storage System (BESS) is guaranteed to begin delivery to SCPPA's participating members, Pasadena Water & Power and Azusa Light & Water, by December 31, 2028.

Why is SCPPA partnering with EDF renewables?

"We are delighted to extend our successful partnership with SCPPA, which has been ongoing for over a decade, to expand the availability of renewable energy and support their decarbonization commitment for member communities," said Sohinaz Sotoudeh, Vice President - West Origination and Power Marketing for EDF Renewables.
