

What is a solar power purchase agreement (SPPA)?

A solar power purchase agreement (SPPA) is a contract that enables you to design, finance, and install a solar energy system on a customer's property. Our complimentary solar contract template outlines the responsibilities of each party and incorporates essential legal clauses to streamline the document creation process.

What is a Power Purchase Agreement (PPA)?

A power purchase agreement (PPA) is a financial agreement where a third party (like a solar company) owns and maintains the solar panel system on your property, and you agree to purchase the electricity generated by the system at a predetermined rate. Many homeowners looking for an easy, low-cost, maintenance-free way to install a solar panel system move forward with a PPA.

How can I create a solar power purchase agreement?

Create your own professional solar power purchase agreement using this Solar Power Purchase Agreement Template from Jotform Sign. The template comes ready-made and can be personalized to match your company's branding.

Who benefits from a solar power purchase agreement?

In a solar power purchase agreement, the host customer and the solar services provider both benefit. The host customer receives stable and often low-cost electricity, while the solar services provider or another party acquires valuable financial benefits, such as tax credits and income generated from the sale of electricity.

What is a solar PPA agreement?

A solar PPA (Power Purchase Agreement) is an agreement where a solar developer retains responsibility for operating and maintaining the solar energy system. Under this agreement, the developer performs annual inspections, repairs any damage, and monitors the system to ensure its performance is continually optimized.

Who pays for the solar system in a solar PPA?

With a solar power purchase agreement (solar PPA), you contract with a solar developer that pays for, installs, and maintains a solar system on your property. The system could include ground-mounted, rooftop, or carport solar panels (or any combination thereof), and it could include an energy storage system.
