

Who is the best solar company in Raleigh NC?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Raleigh, NC are 8MSolar, Olympus Home, Solar SME, Inc., NC Solar Now, and Yes Solar Solutions. How many solar companies are in Raleigh, NC?

How much does solar cost in Raleigh NC?

The average price per watt of solar power in Raleigh, NC is \$2.61/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$23,220 for a 12.73 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Are solar panels a good investment in Raleigh?

Your current power bills: Solar panels can substantially lower, or totally eradicate, your utility bills. In Raleigh, you can save an average of \$1,465 a month. As a result of the cost of solar panels being lower than before as well as local and federal solar incentives, they are a cost-effective investment for most homeowners.

What is solar panel efficiency?

Solar panel efficiency is the amount of energy from the sun that is converted into electricity. Most panels today have an efficiency rating of about 15 to 25%. If your panels are more efficient, you'll need fewer of them for your home's energy needs. Our goal is to reach as many people as we can with sensible solutions like solar energy.

Do solar panels cost a lot?

Choice of solar panels: The type of solar panels you get will affect your total cost. High-efficiency monocrystalline panels will cost more upfront but can also save you more money over the lifetime of your system. If you don't need to maximize efficiency, you can opt for a higher number of more affordable panels.
