

**What is a solar RFP?**

A solar Request for Proposal (RFP) is a formal bid document that outlines the photovoltaic (PV) product or service requirements, the contract terms, and bidding process for solar projects.

**Where can I get a solar RFP?**

There are a variety of resources available to organizations issuing RFPs for PV arrays, including the American Cities Climate Challenge On-Site Solar Request for Proposals template and the National Renewable Energy Laboratory's (NREL's) Writing Solar Requests for Proposals (RFPs): Lessons from NREL's University PV Implementation Assistance Program.

**What should be included in a solar RFP response?**

Solar RFP responses typically contain: Some RFPs for solar projects may require supporting local, woman-owned, or minority-owned businesses and using local labor. Also, some projects may include a marketing or community education component, which should be addressed in the solar RFP response.

**How do I write a solar RFP?**

Create a draft of your solar RFP with input from your team. Ensure you demonstrate a clear understanding of the project's goals and challenges. Consider your company's strengths and how you can meet the solar RFP requirements. Seek feedback from your team on your solar RFP response. Edit the final solar RFP draft, so it is clear and concise.

**How do you evaluate a solar RFP?**

Organizations often use a point system to evaluate solar RFP responses, which commonly include: Writing a high-quality solar RFP response is critical for a high close rate, which begins with a thorough understanding of the proposed PV project. Visit the site to conduct a solar feasibility analysis and on-site solar survey.

**How do you identify risks in a solar RFP?**

Identifying and minimizing risks demonstrates foresight and responsibility: Potential Risks: Identify potential risks that could impact the solar power project, such as supply chain issues, weather delays, or regulatory changes. Mitigation Strategies: Outline your strategies for mitigating these risks in your solar RFP response.
