

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

Are solar scammers posing as government or utility workers?

Posing as a Government or Utility Representative Recently, California has seen an uptick in telemarketing calls from solar scammers posing as government or utility workers. The goal of these fake phone calls is to schedule a free energy audit of your home.

Are solar panels a problem in California?

Another issue California homeowners experience is hiring solar companies who either don't do the work they promised, or do it poorly. The homeowners pay the deposit or even the full amount...and that's when things take a turn for the worse. Some companies will completely disappear and never show up to install the solar panels.

Are solar business leads a scam?

At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammer trying to steal your identity. If you spot a scam, tell the Federal Trade Commission at [ReportFraud.ftc.gov](https://www.ftc.gov/identity-theft).

Are telemarketing calls from solar scammers posing as government workers?

Recently, California has seen an uptick in telemarketing calls from solar scammers posing as government or utility workers. The goal of these fake phone calls is to schedule a free energy audit of your home. Many feel pressured to go through with the audit since it's being suggested (at times demanded) from a so-called trusted authority.
