

What is solar energy as a service?

An easy and low-risk way to get renewable energy and reach your sustainability goals. Solar Energy as a Service is a long-term power purchase agreement(PPA). It enables a fast and easy way to produce renewable energy. Forget complicated saving calculations and enjoy affordable and predictable priced renewable energy.

What is solar power as a service (SPAAs)?

Streaming ushered in a new era for cable with on-demand services. Drawing inspiration from these groundbreaking shifts,Go Solar Power introduces Solar Power as a Service (SPaaS). It's a revolution in how we perceive and access solar energy,making it as seamless as paying for your favorite online subscription.

What is solar as a service (PPA)?

In an effort to make solar more accessible for all types of businesses,solar companies are offering Solar as a Service in the form of a lease or power purchase agreement(PPA). In a standard lease,the customer can make monthly payments to the solar company for the system in the same way you might lease a car.

Is solar energy as a service a good investment?

Solar Energy as a Service is easy and carefree. Since you do not have to invest yourself,it is a low risk decision which can really speed up the process. You will profit from a corporate image perspective with renewable energy from your own roof,while enjoying affordable and predictable energy prices. But there is more...

What is solar-as-a-service (SaaS)?

Understanding Solar-as-a-Service (SaaS) Solar-as-a-Service fundamentally transforms the way individuals and businesses access and utilize solar energy. At its core,SaaS entails the provision of solar power on a subscription or pay-per-use basis,eliminating the need for upfront investment in solar panel infrastructure.

Why should you choose solar as a service?

Solar as a Service will ensure sustainable consumption and productionand will help you make substantial progress towards targets on the use of renewable energy and carbon reduction. Your corporate image will be boosted and you will be recognized for your renewable electricity achievements.
