

Who are Solar Energy Services?

Solar Energy Services is a company that specializes in Solar PV installations, PV Repairs/Maintenance, and PV Battery Storage. Here at Solar Energy Services, it's our goal to help you produce, manage, and use the energy you generate, so you can maximize the benefit of your renewable energy system to your lifestyle.

What services do solar power generators provide?

Inspections, service, and maintenance for your solar power generators to deliver long-term performance and peace of mind. Project scoping, budgeting, planning, and scheduling services help your assets hit full production output for the long term.

Why should you invest in a solar power system?

Real-time data collection, ongoing maintenance, and on-demand service to get the most power, performance, and profitability from your solar assets.

Where do we work on solar projects?

On the one hand, we work on large-scale solar projects in Europe and the Caribbean. But we also work on smaller, local solar projects, including both ground-based and roof-mounted schemes. We use a kit of hand-picked industry-leading software tools such as PVsol, PVsyst and PVcase to enhance the design process.

Is Spark Power a good solar company?

"We've been a client with Spark Power since 2018, and since the beginning, Spark has always been responsive, communicative, and knowledgeable. Their team talks through issues and helps us find appropriate solutions. Their responsiveness has made them a great partner in operations and maintenance for solar."
