At CapeTown.Solar, we specialize in empowering businesses throughout Cape Town and the Western Cape with reliable, scalable, and cost-effective commercial solar solutions.

Who is somewatt solar Cape Town?

Welcome to SomeWatt Solar Cape Town! We are a Cape Town based solar energy solutions company. Our individually tailored solar PV and battery backup systems designs turn roofs into reliable, renewable power sources. Harness the Cape Town sunshine and ditch load shedding with SomeWatt Solar.

What types of solar panels are available in Cape Town?

From polycrystalline panels to solar photovoltaic systems, the right type of solar panels in Cape Town is an important factor in generating solar electricity from the sun's energy. You'll also benefit from energy security by producing excess electricity that can be fed back into the grid or stored in a battery for later use.

Why should you buy solar panels in the Western Cape?

You'll also benefit from energy security by producing excess electricity that can be fed back into the grid or stored in a battery for later use. This applies to residential properties and commercial solar installations across the Western Cape, with many solar panels for sale to choose from.

Can solar power be used in South Africa?

South Africa's sunshine is perfect for solar! PV panels capture sunlight and create electricity. These solar panels generate DC power which an inverter converts to usable AC power for your home. Excess solar power can be sent back to the grid for credits or stored in batteries for nighttime use.

What services does a solar company offer?

Our Services Include: High-Performance Solar Panels: State-of-the-art technology for maximum efficiency. Advanced Solar Power Systems: Tailored to fit your energy needs precisely. Skilled Installation: Certified professionals ensuring seamless integration of solar solutions.
