

Could a new solar farm be on land in North Somerset?

Plans have been unveiled for a new solar farm to be sited on land in North Somerset. The 'renewable energy' near Congresbury has been designed to generate enough power for 14,564 homes. The site, known as Oldbridge, has been earmarked for development by Belltown Power, which is a 'clean energy company' founded in 2013 by a team.

Does CPRE Somerset support solar farms?

Here we explain CPRE Somerset's position on solar farms in the countryside. Does CPRE Somerset support solar power? Yes. We are living in a climate emergency. CPRE Somerset wants to see more of our energy coming from clean, renewable sources. However, solar farms must be sited in the most suitable places, reducing environmental damage.

When can I check out a new solar farm in North Somerset?

You can check out at any time. More info A new 75-acre solar farm has been given planning permission in North Somerset. The 25MWp solar array will generate approximately 25 GWh/year of clean, carbon-free electricity - enough to power around 9,000 homes based on OFGEM average usage rates.

Who is Somerset renewables?

21.81 miles away | 32 Lower Park, MINEHEAD, Somerset TA24 8AY Somerset Renewables is a company that specializes in installing and maintaining renewable energy systems, including Solar Photovoltaic (PV), Solar Thermal, and Heat Pumps for residential and commercial properties in the South West.

What is a solar farm?

The solar farm, strategically located to harness solar energy on a large scale, is designed to contribute to the UK's renewable energy goals by producing sustainable electricity for thousands of homes and businesses.

Where should solar farms be located?

However, solar farms must be sited in the most suitable places, reducing environmental damage. We support solar farms when they are situated on brownfield (previously used) land. They may be suitable for the poorest quality agricultural land, but only if they do not have an adverse impact on the surrounding landscape or habitats.
