

What are solar-powered portable power stations?

Solar-powered portable power stations are a growing sector of the power market that keep your batteries full during power outages and off-grid campouts. These days, gas-powered generators aren't the only option for charging on the go.

Should you buy a power station or solar generator for home backup?

One of the most common reasons people purchase a power station or solar generator for home backup is to ensure everything in their refrigerator stays cool. However, refrigerators have unique power needs compared to other electronics, so it's essential you double-check your unit's requirements before making a final purchase.

Can a solar generator recharge a power station?

The benefit of a solar generator is that you can use the power of the sun to recharge your power station--depending on your home setup, you may even be able to recharge your power station at the same time that you are using the unit to power an appliance or two. Read Next: [The Best Solar Generators](#)

What can a home solar backup generator power?

A home solar backup generator can power your refrigerator, computer and electronics, and a handful of lights and other appliances. However, they are not yet able to match the full-home power supply of larger backup generators powered by natural gas and propane.

What makes a good solar power station?

One of the most important aspects of any solar power station is how well it can interface and charge from various types of solar panels. In some cases, a solar power station might not be able to accept different types of solar panels or may be locked to its own brand's solar panels through a proprietary connection.

What are the benefits of solar-powered portable power stations?

Solar-powered portable power stations keep your batteries full during power outages and off-grid campouts. These days, gas-powered generators aren't the only option for charging on the go. Solar-powered generators--also called portable power stations--are a growing sector of the power market.
