

Who is solar energy Sunshine Coast?

With over 30 years experience in the solar energy industry, we are pleased to offer a high level of service and advice to ensure customer satisfaction. We are an ethical, experienced Sunshine Coast solar energy company. We never exaggerate claims of performance or sell solar solutions that are not proven to perform.

Who are the Best Sunshine Coast solar installers?

If you want to save money, contact the solar installers Sunshine Coast locals recommend, Symons Energy. Call us for a free solar quote today. At Symons Energy, we like to make life simple for all our customers. That's why we created this easy-to-follow four-step installation process.

Should you invest in solar energy on the Sunshine Coast?

You may want to go green or cut your energy costs. The climate here on the Sunshine Coast is perfect for solar energy. However, investing in solar power requires various considerations: How many panels are necessary? What power level is optimal? What about cloudy days? Is a battery storage system crucial? And what's the expected payback period?

How much energy does a solar system produce on the Sunshine Coast?

According to the Bureau of Meteorology, the Sunshine Coast receives approximately 5.2 'peak sun hours' per square meter on average per day. That means to calculate how much energy your solar panels will produce, you need to multiply the kilowatt rating of the solar system by 5.2 and reduce by a typical solar system efficiency rate.

How does solar power work on the Sunshine Coast?

By using the solar power themselves, Sunshine Coast solar system owners avoid having to purchase expensive power from the grid. Electricity from solar systems automatically flows into the home/businesses where it is located first, and any excess is exported to the grid.

Are solar panels cheaper on the Sunshine Coast?

The prices on the Sunshine Coast follow the same price trend as solar panel costs in Brisbane as displayed in the below graph.
