Solar Electric Supply designs and supplies residential solar systems using quality name-brand solar panels and solar panel mounting kits. We feature several inverter technologies including string inverters, microinverters and SolarEdge inverter systems with DC Power Optimizers.

This review is long overdue. We got our solar panels installed in the middle of Covid in 2021 and it has been working great since. We initially got quotes from 3 different places and we decided to go with Solar Power Supply because of Rudy's professionalism, what he offered and the fair pricing. Install went smooth and timely as promised.

Generally, home backup power refers to a set of electrical systems that provide an emergency electricity source during times of power outage. They usually come in the form of power stations or solar generators. When an outage happens, ...
