If you're looking for solar power in Port Macquarie, then look no further than Ocean Solar. Our fully accredited solar designers can customise a solar power system for you in Port Macquarie to maximise your return on investment.

How do solar rebates work in NSW?

Small-scale technology certificates are typically claimed by the solar provider on your behalf and you pay the net cost of the system. Further rebates are available for households in NSW that currently receive the Low Income Household Rebate. These households can swap their annual rebate for a new 3kW solar system.
