

Who installs the best solar panels in Maitland?

Offering quality service and products, the best solar panels Maitland has to offer; plus battery storage systems and solar inverters can all be installed by Hunter Solar Solutions. Our approach is one of honesty.

Does Solahart install solar panels in Maitland?

Solahart was one of the first companies in the world to recognise the value of the sun's free energy. As an authorised Solahart dealer, Solahart Newcastle can install a range of high quality solar panels, battery storage systems & solar inverters in Maitland. We now also install electric vehicle chargers.

How do I switch to solar energy in Maitland?

If you want to make the switch to solar energy, please contact our Maitland solar installation team on 02 4925 7718 or fill in our contact form and a member of our team will be in touch with you shortly to discuss your requirements.

How many kilowatts of solar can I install in Maitland?

In some areas network operators request that you contact them first, but that does not appear to be the case in Maitland. Maitland households can install up to 4.99 kilowatts of rooftop solar if they have single phase power. The maximum is determined by the size of the inverter and not the total capacity of the solar panels.

Who are Maitland based electricians?

Our Maitland-based service team comprises of in-house electrical engineers, Clean Energy Council accredited installers and Level 2 electricians so you can rest assured that your installation is in safe hands and our installation team will keep you informed throughout the entire project.
