

Does a solar cell remote work on a Samsung Smart TV?

The Samsung SolarCell Remote was largely created as an eco-friendly way to keep 99 million AAA batteries from damaging the environment. You can pair this solar remote control to your QLED Samsung Smart TV for enhanced, easy function.

How do you use a solar cell remote?

Place your remote wherever the light is. Leave the solar panel facing up and let the remote do its job and charge. Plus, the SolarCell Remote™ is here to make every option more sustainable, saving up to 200 million batteries from the landfill over the next seven years.* Hungry for power?

How do I charge my Samsung solarcell remote?

Plug one end of the cable into the remote's charging port, and then plug the other end into a port on the TV or into a Samsung wall charger adapter. The LED (light-emitting diode) can be found at the top of the Samsung SolarCell remote, right above the circular direction pad. It explains the status of your remote.

What is the SolarCell Remote?

The SolarCell Remote (TM) is a remote control that features a sleek and simple design, a stylish color for the cover, and easy-grip control. It's aesthetically pleasing and enables easy control across the room.

How can the SolarCell Remote (TM) be charged?

The SolarCell Remote (TM) can be charged with a USB-C charging cable. The SolarCell Remote (TM) trickle-charges through both indoor and outdoor lighting, plus the USB-C port can be used for a fast-charge.

Do I need to recharge my solarcell remote?

Since it does not use alkaline batteries, you will need to occasionally recharge your SolarCell Remote. There are two ways to do it: with the solar panel or with a USB-C cable. When you think of "solar" energy, you probably think of sunlight.
