

What is a solar power bank?

A solar power bank is a portable device that can charge small appliances using solar energy. Jackery portable power banks are a popular choice when you're away from electricity, whether for an office trip or a family camping adventure.

What can you do with a solar power bank?

This is especially great if you have a base camp. Set the solar panel connected to your power bank in a bright sunny area, then go bag a peak, swim in a river, or take an afternoon nap while the sun charges your power bank for you! Then you can use your power bank to charge whatever your heart desires, instead of charging only one item.

Are solar power banks a good option?

We reviewed hundreds of solar power banks to find the best options available for the most common use cases. Solar power banks are incredibly handy when camping, hiking, or just to have when you're not sure if you will have access to a wall outlet for charging. Solar power banks can charge your cell phone, laptop, and even your campsite.
