

What is a big air 400 CFM solar powered roof vent?

The BIG AIR 400 CFM Solar Powered Roof Vent is engineered to be installed on the roof of shipping containers. The vent comes with a 11 7/8 x 14 11/32 range hood filter (Bug Screen) In order to exhaust the full 400 CFM, 2 Big Air 45 Vents are required for air intake. As an Amazon Associate, we earn from qualifying purchases.

Do shipping containers have ventilation holes?

Most shipping containers will have built-in holes to act as ventilation. But the problem is that these holes aren't enough for this situation. It's best to install a ventilation system such as having intake vents, louver vents, or even a window.

What is a shipping container vent Kit?

The shipping container vent kit by CON-VENTS is an effective product for preventing moisture from building up. It comes with two vents that are designed to each end for cross ventilation. This product itself is designed to cover a 20 feet container. It can be placed anywhere, such as the side doors or windows.

What is a solar roofblaster?

The solar roofblaster is specifically designed for Conex shipping containers and be powered by a 3W solar power panel. Most vents are plastic, which can easily break over time. The roofblaster is a metal vent that is made to last. When cool air comes into the intake vents, it'll flow out of the roofblaster vents. Key Features:  
Pros: Cons: 3.

Does a shipping container home need a ventilation system?

One reason that a shipping container home will require a ventilation system because it may overheat, and moisture-sensitive goods can be damaged. Most shipping containers will have built-in holes to act as ventilation. But the problem is that these holes aren't enough for this situation.

How do you make a shipping container a livable space?

If you're utilizing the shipping container as a livable space, then you should find ways to get air to flow into the container. This can be done through roof and side vents. Have vents to the side is the cheapest option to go, and it's an easy way to bring fresh air into the container.
