

What is a solar pod (patent pending) portable solar generator?

The Solar Pod (patent pending) portable solar generator significantly reduces carbon emissions and fuel costs associated with power provision by harvesting solar energy to provide free power to your sites. With reduced fuel and energy costs, our solar power generator systems are a smart choice for any site or event.

How does a solar pod work?

30kW of power from Stage V HVO generator and solar PV/batteries combined. The Solar Pod (patent pending) portable solar generator significantly reduces carbon emissions and fuel costs associated with power provision by harvesting solar energy to provide free power to your sites.

Are portable solar power stations good for construction sites?

Portable solar power stations like our Solar Pods have the added benefit of making construction sites more environmentally friendly. By using renewable fuel sources, these generators reduce the amount of emissions and fuel consumption on your site.

Do hybrid solar power generators come with a backup generator?

Our hybrid solar power generator systems come complete with a backup generator. The built-in Ecosmart systems efficiently manage the power supply between solar PV, battery bank and HVO generator. They provide peace of mind knowing that you will never have to worry about running out of power on site.

Can a 48V solar panel be used in cloudy weather?

The amount of power a 48v solar panel or charging kit generates in cloudy weather will be lower compared to direct sunlight. Also the positioning of the cabin will affect the solar charging of the batteries i.e. under trees, etc. Solar assessment is based at Luton, Bedfordshire, UK.

Roof or ground mounted, SolarPod's systems are simple to install. Ground mounted solar can be installed in as little as two hours. Z-Solutions by SolarPod offers patented ...
