

Why did solid power shares pop today?

Solid Power shares popped today after fellow solid-state battery maker QuantumScape (QS -1.74%) announced some game-changing news. As of 2:45 p.m. ET, Solid Power shares were higher by 11.2%. That move was dwarfed, however, by the 47% spike in QuantumScape shares at that time.

Does the Motley Fool own solid power (SLDP) stock?

The Motley Fool has no position in any of the stocks mentioned. The Motley Fool has a disclosure policy. Poised to end 2024 on a sour note, shares of Solid Power (NASDAQ: SLDP) are skidding today as investors seem energized about moving the solid-state battery stock out of their portfolios.

Is solid power a good stock to buy today?

Solid Power is still in the developmental phase and has not commercialized its product yet. Consequently, the stock's sell-off today is not based on anything material to the company. For those interested in powering their portfolios with Solid Power, today's sell-off provides a great opportunity.

Why did solid power stock sell off Tuesday?

In the regulatory filing, Solid Power did not provide the reason (or reasons) for Johnson's move. It also did not address the matter of a successor, which is likely one reason for the Tuesday stock sell-off. Investors might have overreacted a bit, as any company is more than just one manager or management team.

Will solid power stock end 2024 on a sour note?

Poised to end 2024 on a sour note, shares of Solid Power (SLDP 1.80%) are skidding today as investors seem energized about moving the solid-state battery stock out of their portfolios. The irony though is that the company hasn't reported any negative news which would be a catalyst for the sell-off.
