

What is a solid-state power station?

New Solid-State Technology: Introducing the world's first portable power station utilizing a solid-state battery, enhanced safety, 2.5x higher energy density, and up to 4000 cycles to 80% capacity. The 241 Wh capacity delivers powerful performance with a battery weight of 2 lbs

What is a solid-state battery?

Solid-state batteries can achieve an energy density up to 2.5x higher than conventional batteries. This means that more power can fit into a lighter, smaller package. What's next for Yoshino's batteries? We are constantly innovating and building on our established success in battery technology.

Does Yoshino offer a solid-state battery power station?

We are constantly innovating and building on our established success in battery technology. Currently, Yoshino offers the only commercially-available solid-state battery power stations. With current technology, this is the only way to bring affordable and accessible solid-state batteries to consumers everywhere.

How long does it take to power a portable power station?

Other Portable Power Stations can take up to 4 Hours! Save up to \$2,600 in electricity bills over 10 years of use by powering the Yoshino B4000 SST with three SP200 solar panels. *Note: Savings are calculated based on the average electricity price and sunlight hours in California.

What is a Yoshino B2000 SST portable power station?

The Yoshino B2000 SST Solid-State Portable Power Station is a game-changer in the world of portable power. Its lightweight and portable design, combined with its first-in-class solid-state battery technology, make it the perfect companion for outdoor adventures, emergency situations, and powering household appliances during blackouts.

What is a 1326 watt power station?

The 1326 Wh capacity delivers powerful performance with a battery weight of 11 lbs Power Your Appliances: Featuring 2000 watts and a 1326 Wh solid-state battery pack, the B2000 SST solid-state portable power station is suitable for devices and appliances. It offers UPS with lightning-fast 20 ms switching times. ETL certified to UL2743 standards

Yoshino Solid-State Portable Power Station B330 SST, 241Wh Backup Battery with 2x AC Outlets 330W, Smart APP Control, Solar Generator (Solar Panel Optional) for Camping, Outdoor, Emergency, RVs 4.1 out of 5 ...

Yoshino employs solid-state battery technology to increase the power of its portable stations while making them lighter and safer. Solid-state power stations use a solid electrolyte, allowing for...

SAFETY FIRST - Yoshino solid-state battery cells provide a peace of mind that the competition leaves out; Yoshino has full ETL certification on all its portable power stations and has been US lab tested against thermal runaway (no ...

Industry-Leading Li-NCM Solid-State Technology: Introducing the world's first portable power station powered by Li-NCM Solid-State batteries. With 2.5x higher energy density than ...

Transform the solid-state portable power station into an eco-friendly solar generator with optional Yoshino solar panels. Effortlessly recharge and enjoy limitless power, all while embracing sustainable energy solutions. Empowering ...

The Yoshino B660 SST is a solid-state lithium battery portable power station. It supports multiple ways to recharge including solar panels. It provides AC, DC and USB type outputs.

Industry-Leading Li-NCM Solid-State Technology: Introducing the world's first portable power station powered by Li-NCM solid-state batteries, the B4000 offers 2.5x higher energy density ...

Industry-Leading Li-NCM Solid-State Technology: Introducing the world's first portable power station powered by Li-NCM Solid-State batteries. With 2.5x higher energy density than conventional batteries, the B660 packs 602Wh of power ...

Our engineers have developed the world's first line of premium portable power stations and solar generators - embedding cutting-edge solid-state batteries, the latest in lithium-ion ...

BougeRV semi-solid state portable power station offers unrivaled performance and durability. It provides a reliable power source for camping, hiking, or power outage. ... JuiceGo 240Wh(Pure ...

La B2000 usa tecnologí;a solid-state Li-NCM 16.2. que proporciona una carga fiable y duradera. ... TEL;FONOS FLAGSHIP POWER ZONE San Juan (787) 497-1070 Ponce (787) 497-1071 R;o Grande (787) 497-1072 ATENCI;N AL ...

With a massive 2611Wh capacity and a weight density of 104Wh/kg, the Yoshino B4000 SST is 33% smaller than the industry standard, making it the world's most compact ...

When it comes to portable power stations, solid-state batteries like the one in the Yoshino B2000 are a game-changer due to their superior safety, higher energy density, and longer lifespan. Unlike traditional lithium-ion or lead ...

Yoshino is bringing a new solid-state battery technology to a new power station. Most of the power stations I have reviewed use LifePO4 battery technology, which does work great. Instead, the Yoshino B4000 SST uses

...

The "YOSHINO Solid-State Portable Power Station Push-Button Start Battery Generator 241Wh, 330W/500W"; Looking at the specs i found that it should out preform most in the industry due to it being "solid state";? seems to have well ...

A single unit can output up to 4000 watts continuous (up to 6000 watts peak), and offers 2611Wh of electricity storage in its solid-state Li-NCM batteries, so it is a ...

The Yoshino B330 SST Solid-State Portable Power Station impresses on multiple fronts. Its rugged build, ample battery capacity, versatile charging options, and an array of ...

Unlock the Power of Lighter and Safer Energy Solutions with Our Solid-State Portable Power Station. Experience Unmatched Portability and Safety for Your On-the-Go Power Needs. Shop Now for Efficient and Secure Power Solutions.

Gracias a la tecnolog;a Solid-State, proporciona m's potencia de la manera m's segura. Con 4000 vatios disponibles, es ideal para respaldo en el hogar y pu ... TEL;FONOS FLAGSHIP POWER ZONE San Juan (787) 497-1070 Ponce ...

Yoshino says its product is the "world's first solid-state portable power station", delivering up to 2.5 times the energy density of standard lithium-ion batteries so it can be used ...

The advertisement features a large, light gray ESS Energy Storage System unit on the right. The unit has a vertical green stripe down the center and the ESS logo in green at the top right. It is mounted on a black base with two yellow warning triangles at the bottom. To the left of the unit, there is a list of specifications in red and black text, each preceded by a red header. At the top left, there is a green truck icon, the text 'TAX FREE' in red, and four flags: Germany, the European Union, the United States, and the United Kingdom.

TAX FREE

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
