

What is a solid state power amplifier system?

Solid state power amplifier system is an electronic amplifier which uses solid state devices including GaN, GaAs, LDMOS and bipolar device technologies for jamming, test and measurement, communication, radar and other RF and microwave industries.

What is a high power amplifier?

A high power amplifier is a robust, solid state system designed for specific applications like sonar. Nautel Power offers models ranging from 3kW to 100kW with 200Hz to 4000Hz bandwidth and near 96% efficiency.

What are Wavestream X-band power amplifiers & block upconverters & transceivers?

Wavestream's family of Ka, Ku and X-band Solid State Power Amplifiers (SSPA), Block Upconverters (BUC) and transceivers provide system integrators with field-proven, high performance solutions designed for Ground, Sea and Airborne satellite communication systems worldwide.

What are the different types of RF power amplifiers?

Hybrid Amplifiers - LNA Linear Amplifiers Low Noise Amplifiers Low Phase Noise Amplifiers RF Power Amplifiers Aerospace & Defense Communications Infrastructure GaN Power Amplifiers > 5W RF Power Amplifiers MMICS RF Power Pallets RF Power Transistors - Silicon Bipolar RF Power Transistors - Silicon MOSFET Solid State Power Amplifier Module (SSPA)

What are the different types of amplifiers?

Products RF/Microwave & mmWave Amplifiers Amplifier Gain Blocks CATV Active Splitters CATV Amplifiers FTTx Amplifiers Distributed Amplifiers Hybrid Amplifiers Hybrid Amplifiers - Gain Block Hybrid Amplifiers - Limiting Hybrid Amplifiers - LNA Linear Amplifiers Low Noise Amplifiers Low Phase Noise Amplifiers RF Power Amplifiers Aerospace & Defense

TYTS series solid-state broadband power amplifier, with fixed power devices as the core, has the characteristics of high efficiency, high linearity, high reliability and broadband, and adopts flexible and sealed cavity structure design to meet ...

ACOM international manufacturer of HF power amplifiers HF Antennas Antenna tuners Switches and Crankup masts ... By: Acom Hits: 27324 | Votes: 18 | Rating: 6.89 ...

Colibrys Manufacturer Solid State Power Amplifier Website; Company Profile Manufacturer Overview Colibrys, a joint company established in 2001 and headquartered in Yverdon-les ...

High power, digitally controlled, efficient, RF designs and solutions. Our high power, low frequency amplifiers are robust, solid state systems designed specifically for sonar ...

Solid State RF Amplifier Specifications & Pricing. Henry Radio manufactures a broad range of solid state RF power amplifiers for many different applications. We have many models ranging from 1.8 to 512 MHz and from 10 ...

The MSRP is the Manufacturer's Suggested Retail Price (or list price). If the person who submitted the product knew the manufacturer's web site, this may be available as well. ...

ACTIA Aerospace, division of the ACTIA group, is one of the leading manufacturers in Europe of power amplifiers for satellite transmissions. For almost 50 years ACTIA has been developing ...

Enping LAIKESI Audio Technology CO., LTD. as a professional solid state power amplifier manufacturer and supplier in China, all the solid state power amplifier have passed the ...

Nautel is as a world leader in the design, manufacture, sales and support of high power, solid-state RF products for AM and FM broadcast, navigation, and industrial ...

Solid State Power Amplifiers - SSPAs. Qualified: Our qualified and delivered product line includes SSPAs delivered at 10 MHz, S, C, Ku and Ka Bands (17 - 20 GHz & 20.2 - 21.2 GHz). Heritage and Qualification. Lucix SSPAs have ...

R& S RF amplifiers are innovative solid-state solutions with exceptional RF performance for generating RF power in the frequency range up to 20 GHz. ... Robust solid-state RF amplifiers for the frequency range of 4 kHz to 18 GHz ...

We are an RF / Microwave / Wireless Telecom Manufacturer for component, modules and systems. Browse: Home. Solid State Power Amplifier (SSPA) ... Solid State ...

We provide broadband solid state power amplifiers (SSPA), narrowband microwave amplifiers, high power pulsed amplifiers, T/R modules, RF assemblies and RF systems etc. KeyLink ...

Teledyne MEC continues to be a world leader in the design, development and manufacture of broadband metal ceramic Traveling Wave Tubes (TWTs), Traveling Wave ...

Design & Manufacturing of RF Power Amplifier Module & Systems. EXPLORE THE PRODUCTS PRODUCTS. CELLULAR POWER AMPLIFIERS. Ideal for customers involved with DAS systems, BTS solutions and repeaters, which ...

Panda Microwave design, manufacture, and support a wide variety of Power Amplifier. RF amplifiers product line from Panda Microwave consists of low noise amplifiers, Power Amplifier ...

We specialize in solid-state RF and microwave power amplification technology with a strong emphasis on customer satisfaction. Utilizing our in-house team of RF engineering experts and advanced quality-controlled production facility, we ...

The R& S®PKU100-I is a solid-state high-power amplifier (Indoor) for the Ku-band with a peak power of up to 750 W. The innovative solid-state design gives the amplifier top-notch efficiency ...

RF amplifiers types include: TWT (traveling wave tube) Amplifiers, Solid State Amplifiers, CW, Pulse TWTA and Millimeter Amps. Utilizing state of the art technologies like Gallium Nitride ...

Qorvo's patented Spatium® RF power combining technology provides a wide band, highly reliable, efficient alternative for traveling wave tube amplifier (TWTA) replacements, for commercial and defense communications, radar, electronic ...
