

What is a containment isolator?

The Containment Isolator is designed to not only provide a physical barrier between the operator and the product but to also provide a controlled environment, negatively pressurised with an atmospheric condition or a reduced oxygen content using an inert gas.

What is LC Dover's Soloflex benchtop containment isolator?

LC Dover's soloFLEX benchtop containment isolator is designed for most lab scale processes, offering high containment performance and rapid assembly.

What is a flex benchtop isolator?

Small and compact benchtop isolator offering high containment performance and rapid assembly. ILC Dover's soloFLEX benchtop containment isolator is a complete isolator, capable of handling most lab scale processes. It includes 3x H14 HEPA filters, material entry airlock, a continuous liner port, flex enclosure, and compact exhaust fan.

isolator while maintaining an easy to maneuver workspace. RFID Bottle Housing and Thermal Printer Readouts A safe and easy loading of the hydrogen peroxide is done here. ...

After the acquisition of Solo Containment in 2020, ILC has combined Solo's rich history in single-use isolators with its own expertise in flexible powder handling solutions ... Disposable Lab ...

operation. Both ILC Dover and Solo Containment have extensive test data for variations in flexible film isolator design that allow the isolator technology to be matched ...

Hence for many ADC manufacturers the cleaning validation burden associated with a hard shell stainless steel isolator can be an issue. Solo Containment has developed a ...

This economical flexible isolator delivers performance equivalent to full hard-walled aseptic isolation systems through bolt-on modules for lyophilisation that deliver more ...

As leaders in the field of powder containment, ILC Dover has vast experience in the delivery and testing of flexible film isolator technology for hazardous API containment ...

ILC Dover has acquired a specialist manufacturer of flexible film isolators based in the UK, Solo Containment. The acquisition will grow ILC's global pharmaceutical and ...

Our engineered acrylic isolation system is perfect for stand-alone API dispensing or can be configured into containment for blister pack or bottle fill lines. Our Continuous Liner System ...

The soloLAB(TM) pop-up benchtop isolator makes product containment and processing of small-scale lab operations fast, easy, and economical. Unlike costly large-scale containment units, ...

SOLO Containment (Aseptic & Flexible Isolator) ???? ???? ?? ? ????? ???? ?? ??? ?????? SOLO Containment ?? ?????? ??? ????? ?? ...

Small and compact benchtop isolator offering high containment performance and rapid assembly. ILC Dover's soloFLEX benchtop containment isolator is a complete isolator, capable of handling most lab scale processes. It includes 3x ...

The British manufacturer Solo Containment ltd. offers flexible film isolators and glove boxes for handling high potency, sterile and toxic substances in order to provide aseptic ...

Solo containment offers several advantages over other flexible isolator solutions: They operate isolators at negative pressure for increased safety, use reliable attachment systems instead of bungee cords or tape, and ...

Flexible film manufacturer Solo Containment has developed an isolator half-suit that it claims is more pharmaceutically compliant than current PVC half-suit designs. Because ...

Solo Containment have supplied an aseptic filling enclosure, enabling the Amatsigroup's Disposable Lab facility in France to produce the worlds' first clinical batch in a low cost single ...

Solo Containment's development engineer Arnie Maguire has developed a containment system selection guide for Solo's flexible isolator customers. The chart groups ...

New bench top isolator from Solo Containment Published: 11-Jan-2017 Containment Manufacturing. Since its launch late 2016 Solo's new soloLAB bench top isolator ...

ILC Dover's soloPURE(TM) flexible aseptic isolator is a cost-effective, closed-barrier system for sterile manufacturing that provides a closed, Grade-A, aseptic environment for fill finish ...

Solo Containment Ltd Pharmaceutical Manufacturing Stockport, Greater Manchester 669 followers Single-use containment and aseptic isolator technology for pharma, biopharma and high potency ...

Hence for many ADC manufacturers the cleaning validation burden associated with a hard shell stainless steel isolator can be an issue. Solo Containment has developed a high performance flexible film isolation system ...
