

How do I charge a powerbank?

Plug a suitable USB charging cable into one of the powerbank's USB-A output ports and connect it to your device. Note: You can charge two devices at the same time. Press the power button to turn on the powerbank. Your device is now being charged by the powerbank. Remove the USB charging cable from your device when it is fully charged.

How do I know if my powerbank is charging?

The LED indicator light will glow blue to indicate that the powerbank is charging. Once the powerbank is fully charged, all LED indicator lights are lit. Charge the powerbank at any time and at any battery level. It is not recommended to completely deplete the battery.

How long does it take to charge a powerbank?

Always unplug and allow the device to cool down before maintenance and before long-term storage. Store the device in a dry and dust-free place. Do not expose it to direct sunlight, high temperatures or high humidity. 3 months - and charge the powerbank timely. 4. Operation Fully charge the powerbank before first use. This will take about 7 hours.

What should I know before using a powerbank?

1. Safety instructions Before use, inspect the device. Do not use in case of damage. Do not use the product in extreme hot, cold or humid environments. Keep away from sources of ignition. Avoid long-term exposure to direct sunlight. Do not place, store or use the product near water. Do not charge the powerbank while using it to charge a device.
