

Who is SunPower?

Since 1985, SunPower has been leading global solar innovation. With the highest performing solar power systems available, we are the solar energy choice

Is SunPower a good solar company?

With nearly 40 years of experience and expertise, SunPower is the top-rated solar company in the U.S. They are the only residential solar company that's been around longer than their industry-leading, 25-year panel warranty. *Based on the top 20 panel manufacturers by market share in the U.S. (per Wood Mackenzie US PV Leaderboard Q3 2022 report)

How many residential solar customers does SunPower have?

SunPower, one of the country's largest home solar providers, has nearly 600,000 residential solar customers. After major months of public struggles and structural changes, the company filed for bankruptcy.

When was SunPower founded?

SunPower was founded in 1985. The company is one of a small handful of solar panel installers that operates in all 50 states. While the US saw a record number of residential solar installations in 2023, market changes have led to a contraction in new rooftop solar thus far in 2024.

Who can service a SunPower Solar System?

Homeowners who purchased their systems with cash or a loan can get them serviced by any solar servicing company willing to do the work. If a SunPower dealer installed your system, it may be worthwhile to start there when looking for help with repairs and maintenance. SunPower is currently unable to service malfunctioning systems.

What happens if you own a SunPower solar system?

Complete Solaria made a Stalking Horse bid for some of SunPower's assets. The company intends to liquidate its remaining assets elsewhere. The organization(s) that purchase SunPower's solar lease and PPA assets will likely assume responsibility for servicing those systems. If you own your SunPower system, you may lose some warranty protections.
