

Why should you choose SunPower solar panels?

SunPower has been the leader in global solar innovation. Their solar panels are designed to withstand extreme conditions, such as temperature swings, battering winds, humidity, hail, and more. When you buy SunPower solar panels, you get the highest level of reliability and service.

Does SunPower still design solar panels?

SunPower no longer manufactures its own solar panels, but it still designs three lines of residential solar panels: SunPower Maxeon (M-Series), SunPower Performance (P-Series), and the U-Series. Maxeon Solar Technologies, SunPower's former manufacturing arm, produces the Maxeon and Performance panels.

What is the price per watt for SunPower solar panels?

At the heart of its operations is its cell technology, which is the most efficient on the market. At \$3.61 per watt, SunPower is not for budget shoppers. From solar panels to hardware, SunPower sells complete solar energy systems for residential and commercial applications.

Is SunPower a good company to buy solar panels?

SunPower Corporation has been a key player in solar manufacturing for a long time and is often seen as the leader in solar tech. Their standout product, the Maxeon 3, is currently the most efficient residential solar panel available. However, high quality often means a higher price, making SunPower's panels among the priciest.

Do SunPower solar panels come with microinverters?

SunPower solar panels come with built-in microinverters as part of the SunPower Equinox Home Solar System. This system also includes all necessary hardware and integrates well with other SunPower products, like the SunVault solar battery.

Do SunPower solar panels have a warranty?

For their Performance or P series panels, SunPower offers a 25-year warranty, promising that they'll produce at least 87.2% of their original power after 25 years. SunPower is a leader in making solar panels in an environmentally-friendly way. They have a full plan to be sustainable at every step, from making the panels to using them.
