

Does SunPower sell solar panels?

SunPower sells solar panels as part of its complete solar energy systems for residential and commercial applications. Alongside panels, it offers hardware and efficient cell technology. Its pricing starts at \$3.61 per watt.

How much does a SunPower solar panel cost?

On average, SunPower panels cost around \$4.00 per watt, which is well above the national average of \$3.33 and above the average for tier-one panels, which hovers around \$3.67. Of course, your total price for a SunPower solar power system depends on your energy needs, the size of your home, your location and more.

How much does SunPower cost per watt?

SunPower's solar panels are known for their efficiency, with the most advanced cell technology on the market. At \$3.61 per watt, SunPower is not the most budget-friendly option. It is better suited for solar enthusiasts looking for the best quality.

How much does solar power cost?

The expected cost per kilowatt hour (kWh) is \$0.17. Most of the systems sold by Sunpower use their lease or power purchase agreement (PPA). For these financed PV systems, the lifetime price per watt is \$5.60. Sunpower prices are 11% above the industry average for a cash purchase, and a whopping 70% higher when leased.

Is SunPower a good solar brand?

To summarize, SunPower is a premium brand that focuses on high efficiency and long-term warranty coverage. As you might expect, these benefits come with a higher price tag: while many solar brands have installed costs below \$3 per watt, SunPower has an average cost of \$3.35 per watt according to EnergySage data.

Who makes solar panels for SunPower?

Maxeon has been making solar panels for SunPower since its founding in 1985. In 2020, SunPower and Maxeon split into two separate public companies but still operate hand-in-hand. Maxeon handles most of the manufacturing end, while SunPower does the installations. Jamie is a Content Writer and researcher at SolarReviews.

To help you understand the price of going solar in your area, we've analyzed SunPower price quotes, as well as quotes gathered by third-party sources, for thousands of homeowners across the country. In California, we found that the ...
