

Where can I find information about Sungrow Power Inverter?

You may get additional information at This manual is for technical personnel who are responsible for inverter installation,operation and maintenance,and the inverter owner who will perform daily APP operation. Read the manual and other related documents before commencing any work on the inverter.

What is a sg100ku inverter?

SG100KU Installation Manual Basic Structure and Appearance SG100KU is an advanced and reliable three-phase grid connected inverter for solar power generation systemwith a rating of 100kW.

How do I Reset my Sungrow inverter?

Stop and disconnect the inverter. Restart the inverter when the ambient temperature falls within the operation temperature range. Wait for the inverter to return to normal. Disconnect the AC and DC switches, and reconnect the AC and DC switches 15 minutes later to restart the inverter. If the fault still exists, contact Sungrow Service.

Can a Sungrow inverter be touched during Operation?

Only the DC/AC switchcan be touched during operation. Operate the inverter by strictly following the descriptions in this manual to avoid unnecessary personal injury and property damage. Arc flash,fire or explosion may occur if done otherwise and SUNGROW will hold no liability for damages.

Will the sg100ku inverter shut down if I open the front door?

The SG100KU inverter will immediately shutdownif users want to open the front door during operation. Please check the unit is thoroughly shut down and isolated from the public grid and PV arrays before opening the front door. Page 14 SG100KU Installation Manual Lethal Voltage! Damage to the SG100KU may result death by electric shock or fire!

How do I fix a Sungrow inverter fault?

If the fault still exists,contact Sungrow Service. Stop and disconnect the inverter. Reset the input mode of the PV array. Wait for the inverter to return to normal. Disconnect the AC and DC switches,and reconnect the AC and DC switches 15 minutes later to restart the inverter. If the fault still exists,contact Sungrow Service.

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small&Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped
