

Are Sungrow solar inverters the 'best value inverter' in Australia?

Sungrow solar inverters were recently voted 'best value inverters' in Australia. Here's a deep dive into their residential inverter offerings.

Which company manufactures Sungrow inverters?

Sungrow Inverters are manufactured by Sungrow Power Supply Co Ltd. There are 39 of their inverters approved by the Clean Energy Council for the Small-scale Renewable Energy Scheme, which is Australia's home solar rebate program.

How many solar inverters does Sungrow produce a year?

Sungrow has an annual inverter production capacity of 145GW. In 2021, they shipped 47GW of solar inverters, which was around 30% of world production. Most of these were for large solar farms, but they also produced 50,000 string inverters for residential and commercial use.

Is Sungrow launching a new PV inverter in Australia?

Sungrow Launches New Residential and Commercial Hybrid Inverters and Battery Solutions in Australia
Brisbane, Australia, May 5th, 2024 -- Sungrow, the global leading PV inverter and energy storage system provider, recently hosted a launch event in Australia, showcasing its latest residential and commercial PV inverters and storage batteries.

Should you use a Sungrow inverter?

Sungrow inverters are not just helping us to switch to clean energy. Optimize your home. If your roof currently just keeps the rain out, you may want to find more uses for it. Solar power generation on an industrial level depends on many factors, including the location of the solar farm.

What is a Sungrow RT series solar inverter?

A Sungrow RT series inverter is a 3-phase solar inverter designed for residential solar systems and small businesses. It has an output capacity ranging from 5kW to 20kW and reaches an impressive maximum efficiency of up to 98.5% for its 20kW model.
