

What are Sungrow solar inverters?

Sungrow are a global inverter and storage manufacturer that offers a complete range of products for solar and storage projects in Australia and New Zealand. They manufacture a complete range of solar inverters and energy storage products for residential, commercial, industrial, and utility grade solar projects.

How many countries have Sungrow inverters?

Sungrow inverter is the only solar inverter brand in the world that has a substantial market share in over 60 countries. In India, Sungrow Power has installed over 4 GW of inverter capacity, making it one of the largest players in the market.

What is the main manufacturing location for Sungrow inverters?

Sungrow inverters are mainly manufactured in China. This way, they cut down on cost, unlike some European companies.

Which Sungrow SG string inverter is the best?

The modern SG series of Sungrow string inverters is lightweight and doesn't have a transformer. It features dual MPPT, Wi-Fi connection, and an LCD display. If you need dual MPPT, consider the D series; for single MPPT, the S series is an option.

How do I control my Sungrow inverter?

To control your Sungrow inverter, install the iSolarCloud monitoring app on your smartphone and connect it to your inverter using your home Wi-Fi. This allows you to manage your inverter with a simple touch on your phone.
