

What happens at the end of a Sunrun PPA contract?

At the end of the PPA contract, the homeowner can extend the contract or buy the solar system from the solar company. Sunrun has a PPA product option that will allow you to purchase solar energy at a low, predictable rate without having to worry about the maintenance or performance of your solar panels.

Does Sunrun offer solar services beyond a power purchase agreement?

Sunrun, a leading provider of solar energy solutions, offers a comprehensive range of solar services beyond their renowned Power Purchase Agreement (PPA) contract. These additional offerings cater to diverse needs and preferences, providing homeowners with a wide array of options to embrace clean and renewable energy effectively.

What is the Sunrun PPA buyout program?

The Sunrun PPA buyout program is a solar financing service offered by Sunrun, where they install and maintain solar panels on residential properties at no upfront cost. Homeowners benefit from clean solar energy without the burden of ownership and can enjoy predictable electricity rates over the contract period.

Does Sunrun provide solar leases?

Sunrun offers monthly solar leases as one of their payment options. Other options include full leases (power purchase agreement), purchases with financing, and full purchases. With eligible customers able to go solar for \$0 down, the monthly solar lease is the most popular choice.

Is a Sunrun PPA worth it?

No, one of the significant advantages of a PPA is that there is typically no upfront cost to get started. Sunrun installs the solar panels at no cost, and you only pay for the electricity produced. 4. What are the benefits of choosing a Sunrun PPA over purchasing solar panels outright? The main benefits of choosing a Sunrun PPA include:
