

What is black sweet potato vine?

SolarPower Black Sweet Potato Vine is primarily valued in the home for its spreading and trailing habit of growth. Its attractive deeply cut lobed leaves remain deep purple in colour throughout the year. This is a dense herbaceous houseplant with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers.

Is black sweet potato vine a low maintenance plant?

SolarPower Black Sweet Potato Vine is a dense herbaceous annual with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers. Its relatively fine texture sets it apart from other garden plants with less refined foliage. This is a relatively low maintenance plant.

Does black sweet potato vine need Facer?

It has no significant negative characteristics. SolarPower Black Sweet Potato Vine is recommended for the following landscape applications; SolarPower Black Sweet Potato Vine will grow to be about 12 inches tall at maturity, with a spread of 3 feet. Its foliage tends to remain dense right to the ground, not requiring facer plants in front.

How tall does black sweet potato vine grow?

SolarPower Black Sweet Potato Vine will grow to be about 12 inches tall at maturity, with a spread of 3 feet. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

How long does black sweet potato vine last?

When grown indoors, SolarPower Black Sweet Potato Vine can be expected to grow to be about 8 inches tall at maturity, with a spread of 3 feet. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 1 years.

Is Solarpower a good plant?

Series features heart and cut-shaped leaf varieties! Densely branched SolarPower holds its shape and color in the landscape and mixed combos all Summer long, and it works well with companion plants. Medium vigor and a well-branched habit. Most efficient in production. SolarPower's tidy habit allows for more plants per rack at retail.
