

How do you use a solar power bank?

You can press and hold the button for 2 seconds to activate the flashlight. To operate the power bank in different modes, press the button once to switch to SOS signal mode, and then to activate the warning signal mode. Here's a simplified version of how to use a solar power bank to charge your electronic device:

How do you charge a solar power bank?

Here are the two methods to charge your solar charger, as outlined in the solar power bank user manual. 1. Charging the Power Bank Using Electricity To charge a solar power bank using electricity, plug the power bank into a USB charger using a wall outlet. Here, you can also use a computer to charge it using a USB cord.
