

Is Tesla Energy a good company?

Tesla Energy manufactures high-quality solar panels and solar roof options. The company has nationwide availability and a price-match guarantee, making solar energy accessible to more homeowners and businesses. How does Tesla energy work?

What is Tesla Energy?

Tesla Energy is Tesla's clean energy company. It creates solar panels and fully integrated solar and battery backup roof options for customers who want to switch to green energy. The company offers a price-match guarantee to help make solar more affordable for homeowners and businesses.

What is the efficiency of Tesla Solar panels?

Tesla solar panels have an efficiency rating between 19.3%-20.6%. More efficient panels will produce more energy, but often the difference is small enough that paying more for slightly more efficient panels isn't worth it. Additionally, Tesla offers a 25-year warranty for their solar panels.

Does Tesla have solar panels?

In addition to solar panels, Tesla Energy offers solar roofs, the Powerwall integrated battery system and charging systems for Tesla vehicles. Tesla offers both glass and steel solar roofing tiles that look natural on your roof. Its systems come with a 25-year tile and power warranty.

Will Tesla match a lower price for solar panels?

If you find a cheaper option, Tesla will match the price (given the competing quote is for an equal array and comes soon after your quote from Tesla). Tesla solar panels remain one of the cheapest solar panel installation options available.

Can you lease Tesla solar panels?

Tesla solar panels can be leased. The solar panels Tesla offers are backed by a warranty for 25 years. Tesla guarantees they'll produce at least 85% of their rated capacity at that point. Solar panels can work long after their warranties are up.
