

Does Tesla have solar panels?

In addition to solar panels, Tesla Energy offers solar roofs, the Powerwall integrated battery system and charging systems for Tesla vehicles. Tesla offers both glass and steel solar roofing tiles that look natural on your roof. Its systems come with a 25-year tile and power warranty.

What is Tesla Solar?

Tesla Solar is a system that makes it easy to produce clean, renewable energy for your home or business and to take control of your energy use. Learn more about solar.

What is Tesla Energy?

Tesla Energy is Tesla's clean energy company. It creates solar panels and fully integrated solar and battery backup roof options for customers who want to switch to green energy. The company offers a price-match guarantee to help make solar more affordable for homeowners and businesses.

What can I do with Tesla Solar panels?

With Tesla Solar panels, you can generate your own clean energy whenever the sun is shining. Additionally, you can save excess solar energy in Powerwall for use during storms and outages, or when utility prices are high. You can also charge your electric vehicle with clean energy at home using Mobile Connector or Wall Connector.

What is Tesla's best solar product?

Tesla's Powerwall battery is the company's best solar product. The Powerwall is charged by excess energy produced by the solar panels or solar roof and is discharged when solar energy isn't being generated. The Tesla Solar Roof is your roof -- instead of shingles, you'll have roofing tiles that produce solar energy.

Is Tesla Energy a good company?
