

What is Tesla's Solar rental program?

Tesla's solar rental program was a new twist on the traditional third-party ownership agreement. Instead of signing a 20-year contract for a solar \$0-down lease or a power purchase agreement (PPA), the Tesla solar rental program allows you to install solar with no upfront cost and no long-term contract commitment.

How much does a Tesla Solar rental cost?

For as little as \$50 per month, Tesla will come to your home and install a solar system. There's no long-term contract. As long as you pay the monthly fee, the system will generate solar power and it will reduce your electricity bills. Here are the base fees and projected returns in the markets where the new Tesla solar rental program is available:

Does Tesla rent solar panels?

Tesla's solar panel rental program comes days after the company lowered the price of its solar panels, in some cases dropping the price per watt to as low as \$1.75, 16% lower than the national average of \$2.09. How a lesson learned from lotus flowers could give us self-cleaning solar panels

Does Tesla have a rental program?

When first introduced, Tesla included a \$1,500 solar panel removal clause. However, they updated the terms of the rental program to remove that cancellation fee, meaning the rental program truly has no long-term commitment. Why did Tesla introduce the rental program? The rental program was a shot in the arm for Tesla's struggling solar business.

How much does Tesla Solar cost?

The Tesla solar rental program offered customers in six states—Arizona, California, Connecticut, Massachusetts, New Jersey, and New Mexico—three pre-set options for installing solar on their homes: And a large, 11.4 kW installation for \$150 per month (note these costs are higher for California residents).

What if I don't want to rent solar from Tesla?

Tesla also has some estimates on how much power those panels are expected to generate each year. Like all good deals, there is a catch: If you decide you don't want to rent solar from Tesla anymore, you'll be forced to pay a \$1,500 removal fee to the company to take down the equipment. That fee can't be waived.
