Who regulates electric vehicle charging stations in Texas?

TDLR is responsible for creating a regulatory framework for electric vehicle charging stations in Texas. Electric Vehicle Charging Stations are regulated in Texas by the Texas Department of Licensing and Regulation.

Where can you charge an electric car on a highway?

For highway driving, charging happens at dedicated DC fast charging stations located along main highways. Drivers can choose from multiple networks based on the fast charging connector on their vehicle; most networks support multiple connector types at each station. Common networks include Electrify America, Tesla, EVgo, and ChargePoint.

Where are most charging stations located?

Stations are usually located at offices, shopping malls, restaurants, and hotels. There are over 3000 electric vehicle charging stations (and growing) in Texas and many stations charge multiple vehicles at one time. For daily driving, most charging will occur overnight at home or throughout the day at Level 2 and DC fast charge stations.

When is the best time to charge an electric vehicle in Texas?

The best time to charge your electric vehicle in Texas is between 10p.m. and 6a.m.. During this period, renewable wind power peaks and there is typically more capacity in the Texas grid. It's recommended to avoid charging between 4p.m. and 7p.m., when there is typically less capacity in the grid.

Can You charge a car at a DC fast charging station?

Yes, you can charge an electric vehicle at a DC fast charging station. DC fast charging stations can charge your vehicle quickly, usually up to 80% or less for long trips. However, it's recommended not to let your battery sit at 0% or 100% for long periods of time.
