

Is Titan solar power a bad company?

Unfortunately,Titan Solar Power has a bad reputation for customer service. The company has accrued more negative reviews than positive ones owing to lack of communication and follow-up,poor attention to detail,poor customer service -- especially following installation and payment -- and other related issues.

Is Titan solar a good solar company?

The company also noted it would "no longer be supporting new Leases and PPA sales nor new project installations of these financing options." Titan Solar Power is one of the best-known solar companies in many parts of the country and is often cited as the number one solar installer by volume in the country.

Does Titan install solar panels?

Since its inception,Titan has expanded rapidly to 16 states in the southern U.S. and along the East Coast. The company is commonly cited as the number one installer of solar panels by volume in the U.S.,with over 33,000 residential solar panel system installations. Titan also covers commercial solar installations and provides solar monitoring.

Who is Titan solar power?

Titan Solar Power was founded in 2013 by David Williamson and Kyle Beddomein Mesa,Arizona. Since its inception,Titan has expanded rapidly to 16 states in the southern U.S. and along the East Coast.

How do I contact Titan solar power?

Most customers use the company's online contact formto request a consultation. A representative from Titan Solar Power -- or a third-party company Titan outsources to -- will connect with you shortly thereafter to discuss your home and your expectations for solar. In most cases,the first call will be a video chat.

How long does Titan solar power take to install?

The installation process can usually be done in a day,but there have been some customer complaints about Titan Solar Power taking longer and leaving gaps between workdays. Finally,Titan Solar Power will commission your system,at which point the panels should begin producing energy.
