

Titan solar power bankruptcy what happens

What happens if Titan solar power goes bankrupt?

While Titan Solar Power's bankruptcy is unfortunate, it doesn't have to spell disaster for your solar energy investment. Titan Solar Techs is here to provide the support and services you need to keep your solar panels in top condition.

What happened to Titan solar power?

The solar industry has been a beacon of hope for a sustainable future, but not all companies have been able to withstand the economic pressures. Recently, Titan Solar Power, once a major player in the solar energy market, has declared bankruptcy and is going out of business.

Did Titan solar go out of business?

Two years later, the panels have never been switched on and the company that installed them--Titan Solar--has abruptly gone out of business, leaving Palmer with a shiny but useless array on her roof.

Why did Titan go bankrupt?

That day, Titan's employees received an email that said company leadership had tried and failed to find a buyer for the company and bring in new sources of capital and that the company would close effective immediately. A week later, Titan filed for Chapter 7 bankruptcy liquidation in Arizona.

Does Titan solar have assets available to pay creditors?

A statement provided on the Court's web page says, "In most of the cases filed, it appears that there are no assets available to pay creditors." Titan's closure is the latest in a string of high-profile solar company failures, including Pink Energy (formerly Powerhome Solar), ADT Solar, and others.

Will there be more solar bankruptcies this year?

Analysts are predicting even more solar bankruptcies this year as high interest rates and changing policies about how much people can get compensated for their solar power dampen consumer enthusiasm. Wood Mackenzie says that residential installations will shrink by about 14% this year. Read more: [The Solar Power Industry Is in Trouble](#)
