

Who is Titan Solar Power?

Titan Solar Power, founded in March 2013 in Mesa, Arizona, has grown to become one of the fastest growing solar installers in the southwestern United States. It plans to expand across the South and Midwest regions of the country.

How much solar power has Titan installed?

As of 2019, Titan solar power has installed more than 220,000 kilowatts of solar energy across seven states in the country.

Does Titan Solar Power sell solar panels?

Titan Solar Power offers LG solar panels and the LG Chem solar backup battery. In addition, they sell privately labelled solar panels through a partnership with Silfab, making them one of the few solar installers that do so.

What happened to Titan solar power?

Titan Solar Power, a large US residential solar installer, unexpectedly ceased operations on June 13, 2024. The Chandler-based solar company, founded in 2013, filed for Chapter 7 bankruptcy protection on June 20. The company reported having between 5,001 to 10,000 creditors. Kyle Beddome is listed as the company's business owner.

Is Solar Titan a good company?

Some customers have reported positive experiences with Solar Titan, such as a quick installation process and good sales team. However, others have had issues, including a failed State Electrical inspection that was slow to be resolved. There have been complaints about poor customer communication and customer service. It appears that the overall experience with Solar Titan can vary.

Where is Solar Titan USA headquartered?
