

What happened to Titan solar power?

Titan Solar Power, a large US residential solar installer, unexpectedly ceased operations on June 13, 2024. The Chandler-based solar company, founded in 2013, filed for Chapter 7 bankruptcy protection on June 20. The company reported having between 5,001 to 10,000 creditors. Kyle Beddome is listed as the company's business owner.

Who is Titan Solar Power?

Titan Solar Power, founded in March 2013 in Mesa, Arizona, has grown to become one of the fastest growing solar installers in the southwestern United States. It plans to expand across the South and Midwest regions of the country.

How does Titan sell solar systems?

These dealers sold solar systems on behalf of Titan, which then managed the installations. The financial arrangement involved a pricing model, where Titan charged a fee for the completion of the project, and dealers kept the remaining amount as their commission.

How did Titan solar power start?

Titan Solar Power had established itself through a vast Solar Dealer program, partnering with many solar sales organizations. These dealers sold solar systems on behalf of Titan, which then managed the installations.

How do I file a complaint against Titan solar?

File a complaint. The Arizona Attorney General's Office is looking into the business practices of Titan Solar, if you have any issues with the company, customers are encouraged to let the AG know about them. For more information, or to file a complaint, [click here](#).

How do you know if a Titan solar inverter is out of business?

Here are a few options customers can consider: Check your equipment for warranties. "Even if they're (Titan Solar) out of business, most of that equipment should still have warranties from the manufacturer, and the manufacturer of that equipment should honor those warranties," explained Keller. Know your inverter company.
