

What is the best solar power bank?

Learn More. The ToughTested 16000mAh solar power bank is a great choice if you are looking for a way to keep your gadgets charged when outdoors or in case of an emergency. ToughTested 16000mAh holds enough power to charge a standard smartphone 5-6 times.

Which solar power bank should I buy?

The Solgaard Solarbank is our top overall pick for a solar power bank. It's lightweight, sleek, compact, and packs plenty of battery power. It's especially handy when paired with the Solgaard backpack, making it a great choice for travel or everyday use.

How many charges can the solar power bank hold?

The solar power bank holds up to five charges, ensuring you won't end up with any dead devices, no matter where you are. Its solar panels let you charge it up with some sunlight or with a USB-C chord - whichever option is most convenient. There's a good reason it's considered the top solar power bank on the market.

Is a solar power bank a good choice for hiking?

A solar power bank is an excellent choice for hiking due to two common conditions in hiking spots: daylight and lack of power outlets. It's inexpensive and lightweight, making it suitable for both one-day and multi-day trips.

What makes the Solgaard Solarbank the best overall pick?

The Solgaard Solarbank is our top overall pick because it covers all the essential on-the-go basics: it's lightweight, sleek, and compact while still packing in plenty of battery power. It's especially handy when seamlessly paired with the Solgaard backpack. For travel or just for everyday use, it's simply the best.

What's the advantage of a solar power bank?

Power banks are awesome. A huge advantage is that they're environmentally-friendly and can maintain their charge without any electricity. Sunlight is all you need to charge your gear on the go. If you've been considering a solar power bank for quite a while, it's definitely time to pull the trigger.
