What is a solid 10L cryogenic liquid nitrogen (LN2) tank?

The U.S. Solid 10L Cryogenic Liquid Nitrogen (LN2) Dewars Tank is perfect for LN2 storage. Using Dewar technology, this tank uses an insulating process utilizing a vacuum between two interior walls which are constructed with aircraft grade aluminum.

What is a cryogenic storage dewar?

Cryogenic storage dewars are tailor-made for liquid nitrogen, providing optimal shape, capacity, and materials for storage. Liquid nitrogen, staying cold without pressurization, maintains temperatures well below freezing, serving various purposes in different fields. The Evaporation Rate of Liquid Nitrogen with the U.S. Solid Cryogenic Container.

How many liters of liquid nitrogen can a Dewar hold?

**CAPACITY:** The U.S. Solid Cryogenic Container Liquid Nitrogen Tank Dewar can hold up to 10 Liters of liquid nitrogen. **DEWAR:** Dewars are designed for the sole purpose of holding extremely cold liquids such as liquid nitrogen; They have the shape, capacity, and material construction to store liquid nitrogen with a slower evaporation rate.

What is a cryogenic liquid nitrogen Dewar?

A cryogenic liquid nitrogen Dewar is a vacuum-insulated container used to store and transport cryogenic liquids like liquid nitrogen (LN2), argon, and oxygen. These Dewars are designed for easy movement and safe delivery, with multiple sizes and configurations available.

What is a Dewar tank?

A dewar tank, a double-walled flask with a vacuum between the walls, is ideal for holding liquids at very low temperatures, like liquid nitrogen. This cryogenic container ships empty and can be filled at any liquid nitrogen supplier. Some places may require a liability waiver before filling.

Do I need a liquid nitrogen tank?

Customers will need to obtain their own Liquid Nitrogen. Liquid nitrogen is very cold and can cause burns if it comes into contact with skin. For safety, please wear cryogenic protective gloves when handling the tank. This is the state of the art U.S. Solid 10L Liquid Nitrogen (LN2) Dewars Tank that is perfect for all your cryogenic storage needs.
