

Village of minster s solar and energy storage project

What is the village of Minster's solar and storage combo?

The Village of Minster was the first municipal utility in the U.S. to test out a solar and storage combo. Like many small Midwestern electric cooperatives and municipal utilities, Minster officials wanted solar to diversify its portfolio and hedge against fuel price volatility, said Donald Harrod, Village of Minster administer.

Is there a solar-plus-storage project in Ohio?

Take the Village of Minster in Ohio. Leaders of the public power utility in that town had long been solar advocates when they were approached by CEO Michael Hastings of Half Moon Ventures, a development and financing company. The company proposed what is now the United States' first municipal utility-owned solar-plus-storage project.
